

YOUR *Fertility* SUPPORT PROGRAM

HELPING PEOPLE BUILD FAMILIES

The journey to parenthood is not always easy. If you are struggling to conceive, WINFertility is here to help.

WIN will help you better understand your options so you can maximize your benefit dollars and choose the best course of treatment. More importantly, WIN knows this can be an extremely stressful and emotional time in your life. We are here to support you through every step of your fertility journey.

Program Benefits

Inova provides a \$25,000 lifetime maximum toward certain costs related to fertility treatment and a \$20,000 lifetime maximum benefit toward prescription coverage. WIN's Nurse Care Managers are available 24/7 to answer your questions and educate you about your care. Through this program you will learn about:

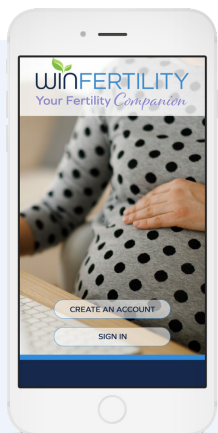

- Infertility, the causes, testing and diagnosis
- Treatment options, success rates and potential risks
- Receiving assistance with provider selection
- Understanding your benefits
- Medications, usage, storage and side effects

How it Works

WINFertility provides personalized guidance and support to help you select the right provider and navigate the system, your care and benefits. Working together with your health plan network of doctors and pharmacies, we provide you with total support and coordination of care. WIN has you covered!

Getting Started

Speak with a WIN Service Team Member at **833-204-2756** to activate your benefits and speak with a Nurse Care Manager, or visit our website at <https://managed.winfertility.com/inova> to learn more.

WINFERTILITY COMPANION APP: YOUR FERTILITY ON THE GO!

Download the WINFertility Companion mobile app to take advantage of your benefits on the go. WIN's mobile app allows you to:

- Speak with a Nurse Care Manager by phone, email or mobile messaging
- Privately track multiple family-related activities
- Set calendar reminders for doctor appointments and other medical events
- Get discreet alerts for ovulation tracking

Use employer code **INV19** when creating an account on the mobile app.
