## Prescription Drugs

Prescription drug coverage is included in the premiums you pay for medical coverage. The copays or coinsurance (collectively referred to as “cost sharing”) in the chart below show how much you’ll pay for a prescription. Cost sharing counts toward your out-of-pocket maximum but not your deductible.

### Up to a 30-day supply from retail pharmacy

	Inova Pharmacy Plus	Retail Pharmacy
Generic	\$5	\$10
Preferred Brand <sup>1</sup>	20% (\$20 minimum/ \$50 maximum)	20% (\$25 minimum/ \$80 maximum)
Non-Preferred Brand	30% (\$55 minimum/ \$100 maximum)	35% (\$75 minimum/ \$120 maximum)

### Up to a 90-day supply from mail order or CVS pharmacy

	Inova Pharmacy Plus	Mail Order or CVS Retail Pharmacy (must use CVS if picking up in store)
Generic	\$15	\$30
Preferred Brand <sup>1</sup>	20% (\$50 minimum/ \$125 maximum)	20% (\$65 minimum/ \$200 maximum)
Non-Preferred Brand	30% (\$150 minimum/ \$250 maximum)	35% (\$190 minimum/ \$300 maximum)

### Specialty

	Inova Pharmacy Plus
Specialty Preferred Brand	30% (\$100 maximum)
Specialty Non-Preferred Brand	30% (\$200 maximum)

Note: There is a \$20,000 lifetime maximum benefit for fertility drugs.

<sup>1</sup> If you are enrolled in the HSA HDP, you will pay the full price for all prescriptions until you meet your medical plan deductible. Once you’ve met your deductible, you will be charged the copays shown. Note that the deductible will be waived for drugs on the Preventive Therapy List. This list can be found on [www.myinovabenefits.org](http://www.myinovabenefits.org). Click on the TAKE ACTION AT THE INOVA BENEFITS CENTER tile, located on the home page, log in, and click Library at the top of the page. Participants in the PPO plan do not have to meet their deductible before copays apply for prescription coverage. Prescription copays do not apply toward the deductible for the PPO plan.

If you elect to purchase a brand-name drug when a generic alternative is available, you will be required to pay the brand cost sharing, plus the difference between the cost of the brand-name drug and its generic equivalent. There are no exceptions.

<sup>2</sup> Specialty medications (typically injectable and oral drugs) must be filled through Inova Pharmacy Plus locations and are dispensed in 30-day quantities via mail order. First fills are not available through retail, except in emergencies. For more information, contact Inova Pharmacy Plus directly.

#### Maintenance Medications

You are required to receive a 90-day supply of a maintenance medication after your second fill of a 30-day supply. Your cost is cheaper on a per unit basis for a 90-day prescription than a 30-day prescription. You can fill these prescriptions through Inova Pharmacy Plus, Express Scripts Home Delivery mail service or a CVS retail pharmacy.

#### Specialty Medications

Specialty medications are high-cost prescription drugs used to treat complex, chronic conditions, such as rheumatoid arthritis, multiple sclerosis, and cancer. Specialty drugs must be filled through Inova Pharmacy Plus and are dispensed in 30-day quantities. Due to manufacturer restrictions, some specialty medications will still be available only through Express Scripts Specialty Pharmacy/Accredo. For more information, please contact Inova Pharmacy Plus at 1.571.472.1100 and select option #9.

### Be a Team Player

Fill your prescriptions through Inova Pharmacy Plus. It saves you money! Plus, any revenue is paid to Inova rather than a competing pharmacy.
